

# RECENTLY GRADUATED DEVELOPER

*Are you geeky in a cool way and do you want to work in a young development environment with one common goal - to deliver new features and functionality to customers and colleagues? Do you want to participate in the development of our website and app solutions?*

## About the position

This is a new position, defined as part of a general development and expansion of the software department. As developer, you will be part of a strong and competent team putting all efforts into the process of developing the Boligportal website and app for mobile devices. You will report directly to CTO Karsten Børglum.

## Tasks and responsibilities

As developer, you will interface with all colleagues in the software department and work closely together with the existing agile software team, who is responsible for the development of all software solutions for Boligportal.

You will be part of a great team and you will be given the unique opportunity to state your knowledge and input to the development process - i.e. influencing the [www.boligportal.dk](http://www.boligportal.dk) website and the apps. The focus will be on the customer experience / FrontEnd stuff.

Hence, this position can offer you some/all of these challenges:

- General development and improvement of the site and apps
- Participation in architectural debates and descriptions of the future system base
- Finding, sharing and integrating new tools and technologies for improving the total outcome

## About you

You have relevant IT/software education, and you are on top of trends and the exploration of new technologies. You feel comfortable working in teams, where your opinion counts and you are able to make decisions.

You have experience with React – that's important, and of course You know how to make great code in JavaScript, HTML-5, CSS

You are proud of all the nerdy stuff you have made, however you are still pragmatic and able to find the right solution. You are a team player and you enjoy working in a team of talented people, yet not afraid to speak up and to state your opinion in the group - and you are known for infusing your team with energy and positive vibes.

## Application and questions

If you want to be our new employee please send your application and/or resume to CTO Karsten Børglum, [krb@boligportal.dk](mailto:krb@boligportal.dk). Do not hesitate to contact him via email, if you have any questions about the position. Start- up is as soon as possible.
